buttons accessories

Società fondata nel 1971, Maribert opera sul mercato italiano ed estero con continuità di intenti e di prodotti. E' una azienda solida ma agile nel rispondere alle sollecitazioni di un settore in continua evoluzione. Questa flessibilità è resa possibile da capacità umane e da un continuo aggiornamento tecnologico.

Maribert è specializzata nella produzione di bottoni realizzati in resina poliestere ed in materiali naturali quali il corozo (avorio vegetale) e la madreperla. A questo settore si affianca la produzione di accessori impiegati per il confezionamento e la presentazione della camicia : reggicolli-farfalline , girocolli –tendicolli e stecchine per sostenere e modellare il collo della camicia, clips in plastica e metallo , spilli per trattenerne il tessuto.

Maribert si rivolge alle industrie di abbigliamento , alle camicerie ed alle industrie che producono corredo per la casa.

Rivenditori dei prodotti Maribert sono presenti sul territorio nazionale.

Since it was founded in 1971, Maribert has been operating in Italy and abroad with continuity of ends and a successful line of products. A solid company also fast and flexible in responding to the continually changing requirements of the market. This flexibility is made possible thanks to the company's skilled human resources and continuous technological updating.

Maribert specializes in the production of good quality buttons made by sintetic resins and natural materials such as real corozo (vegetable ivory) and mother of pearl (nacre).

The company also produces shirt accessories used in shirt packaging and displays: collar supports for shirts, butterflies; collar bands, strips; collar stays to support and shape the shirt collar; plastic and metal clips; pins to hold the shirt's fabric.

Maribert sells to clothing companies, shirt-makers and home decorating manufacturers, it also has resellers for its products throughout Italy.

GIROCOLLO ARTICOLO G - in materiale plastico trasparente. Grazie al suo particolare disegno risponde oltre a precise esigenze funzionali ad esigenze estetiche. La svasatura frontale impedisce al girocollo di sporgere dal collo della camicia.

Le fessure delle taglie si collocano in posizione tale da non essere viste, lasciando completa trasparenza sul fondo del collo.

COLLAR BAND ITEM G - made of transparent plastic material. Thanks to its particular design, in addition to definite functional needs it answer to aesthetic exigens too. The front beelling shape avoids the strip to jut out of the shirt collar. The size slits are placed in such a way so as to be hidden, allowing a complete sight of the inner collar.

for strong pinning

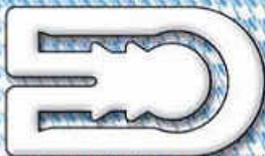

## Clips 5

trasparente/  
transparent plastic

## Clips 6

## Clips 7

CLIPS in materiale plastico trasparente tipo cristallo (su richiesta possono essere realizzate anche bianche o nere). Usate nel confezionamento del capo, consentono di pinzare il tessuto in ausilio o in sostituzione degli spilli.

CLIPS made of transparent plastic material (white or black by request). During the packing of the shirt they fix properly the fabric in addition or substitution of the pins.
